

Groupe R2D2

Introduction : IA et Robotique

Plan

- 1/ Schéma fonctionnel
- 2/ Schéma d'architecture (UML)
- 3/ Démonstration (Simulation)
- 4/ Pistes d'amélioration
- 5/ Retour d'expériences

Modèle View-controller

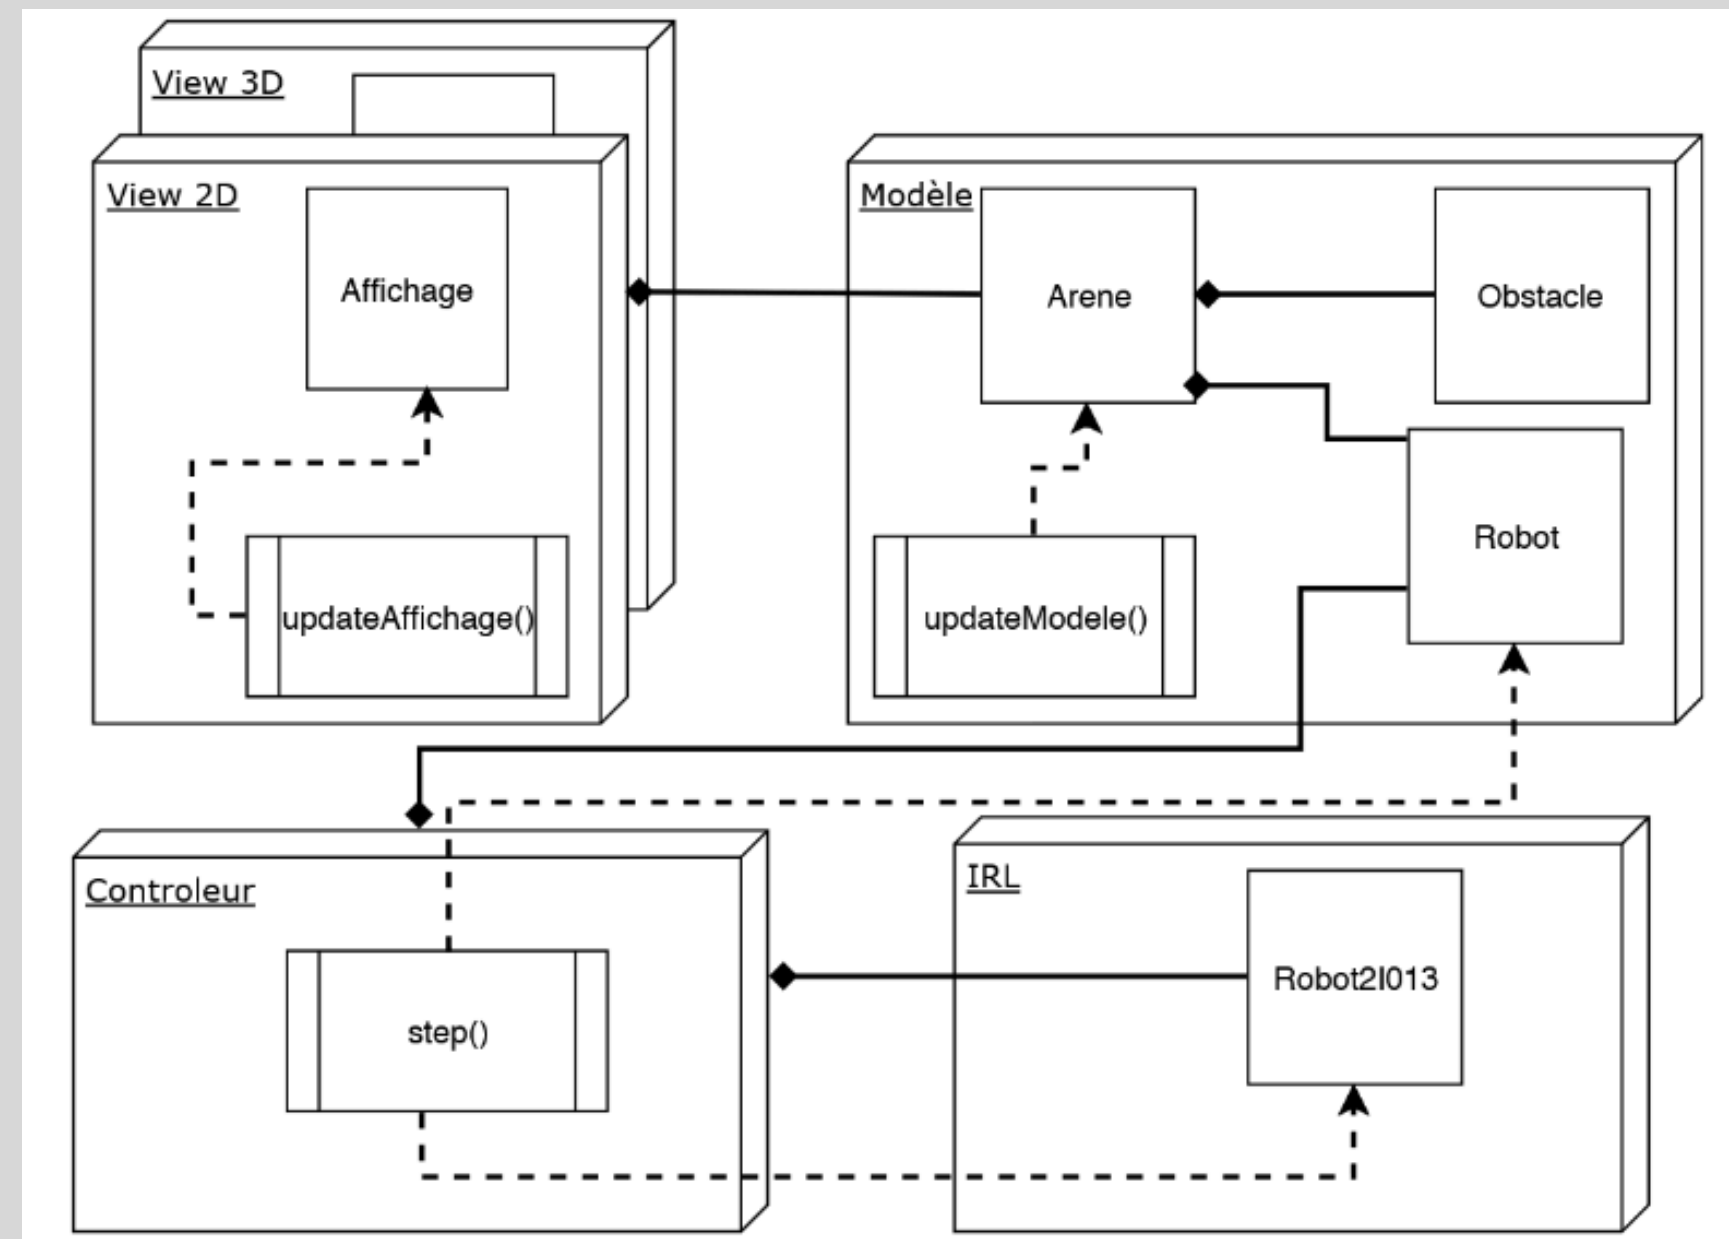

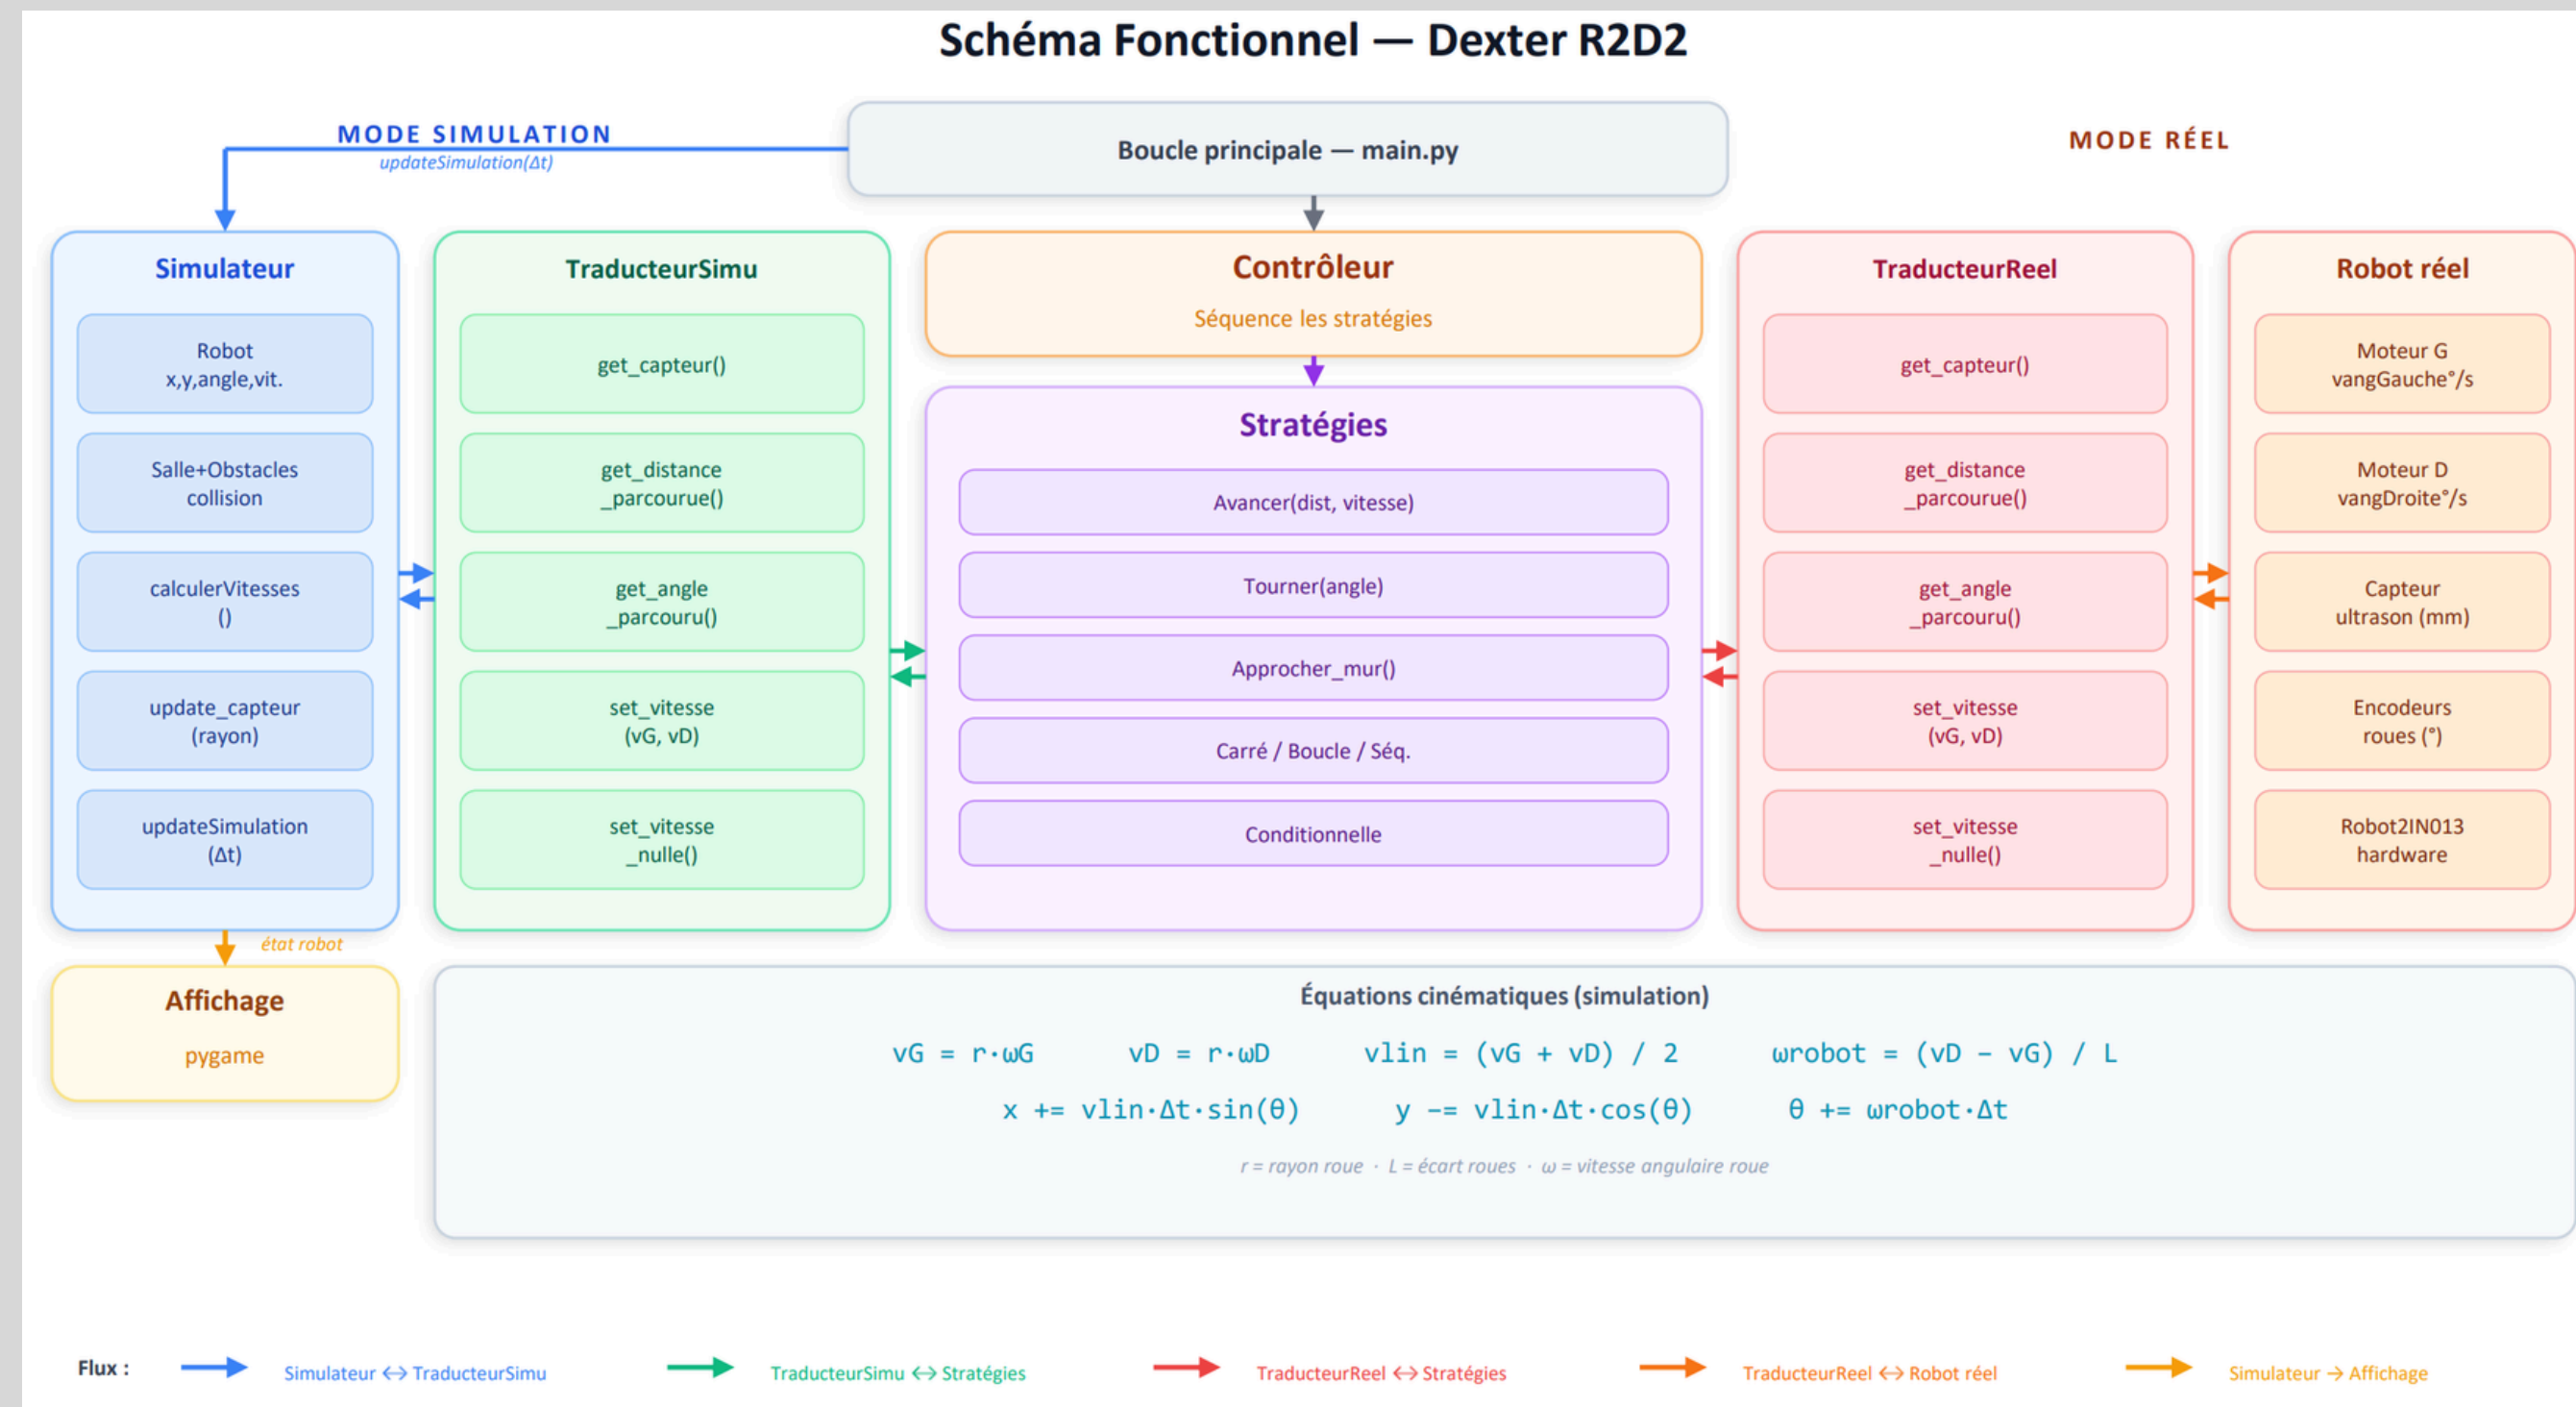

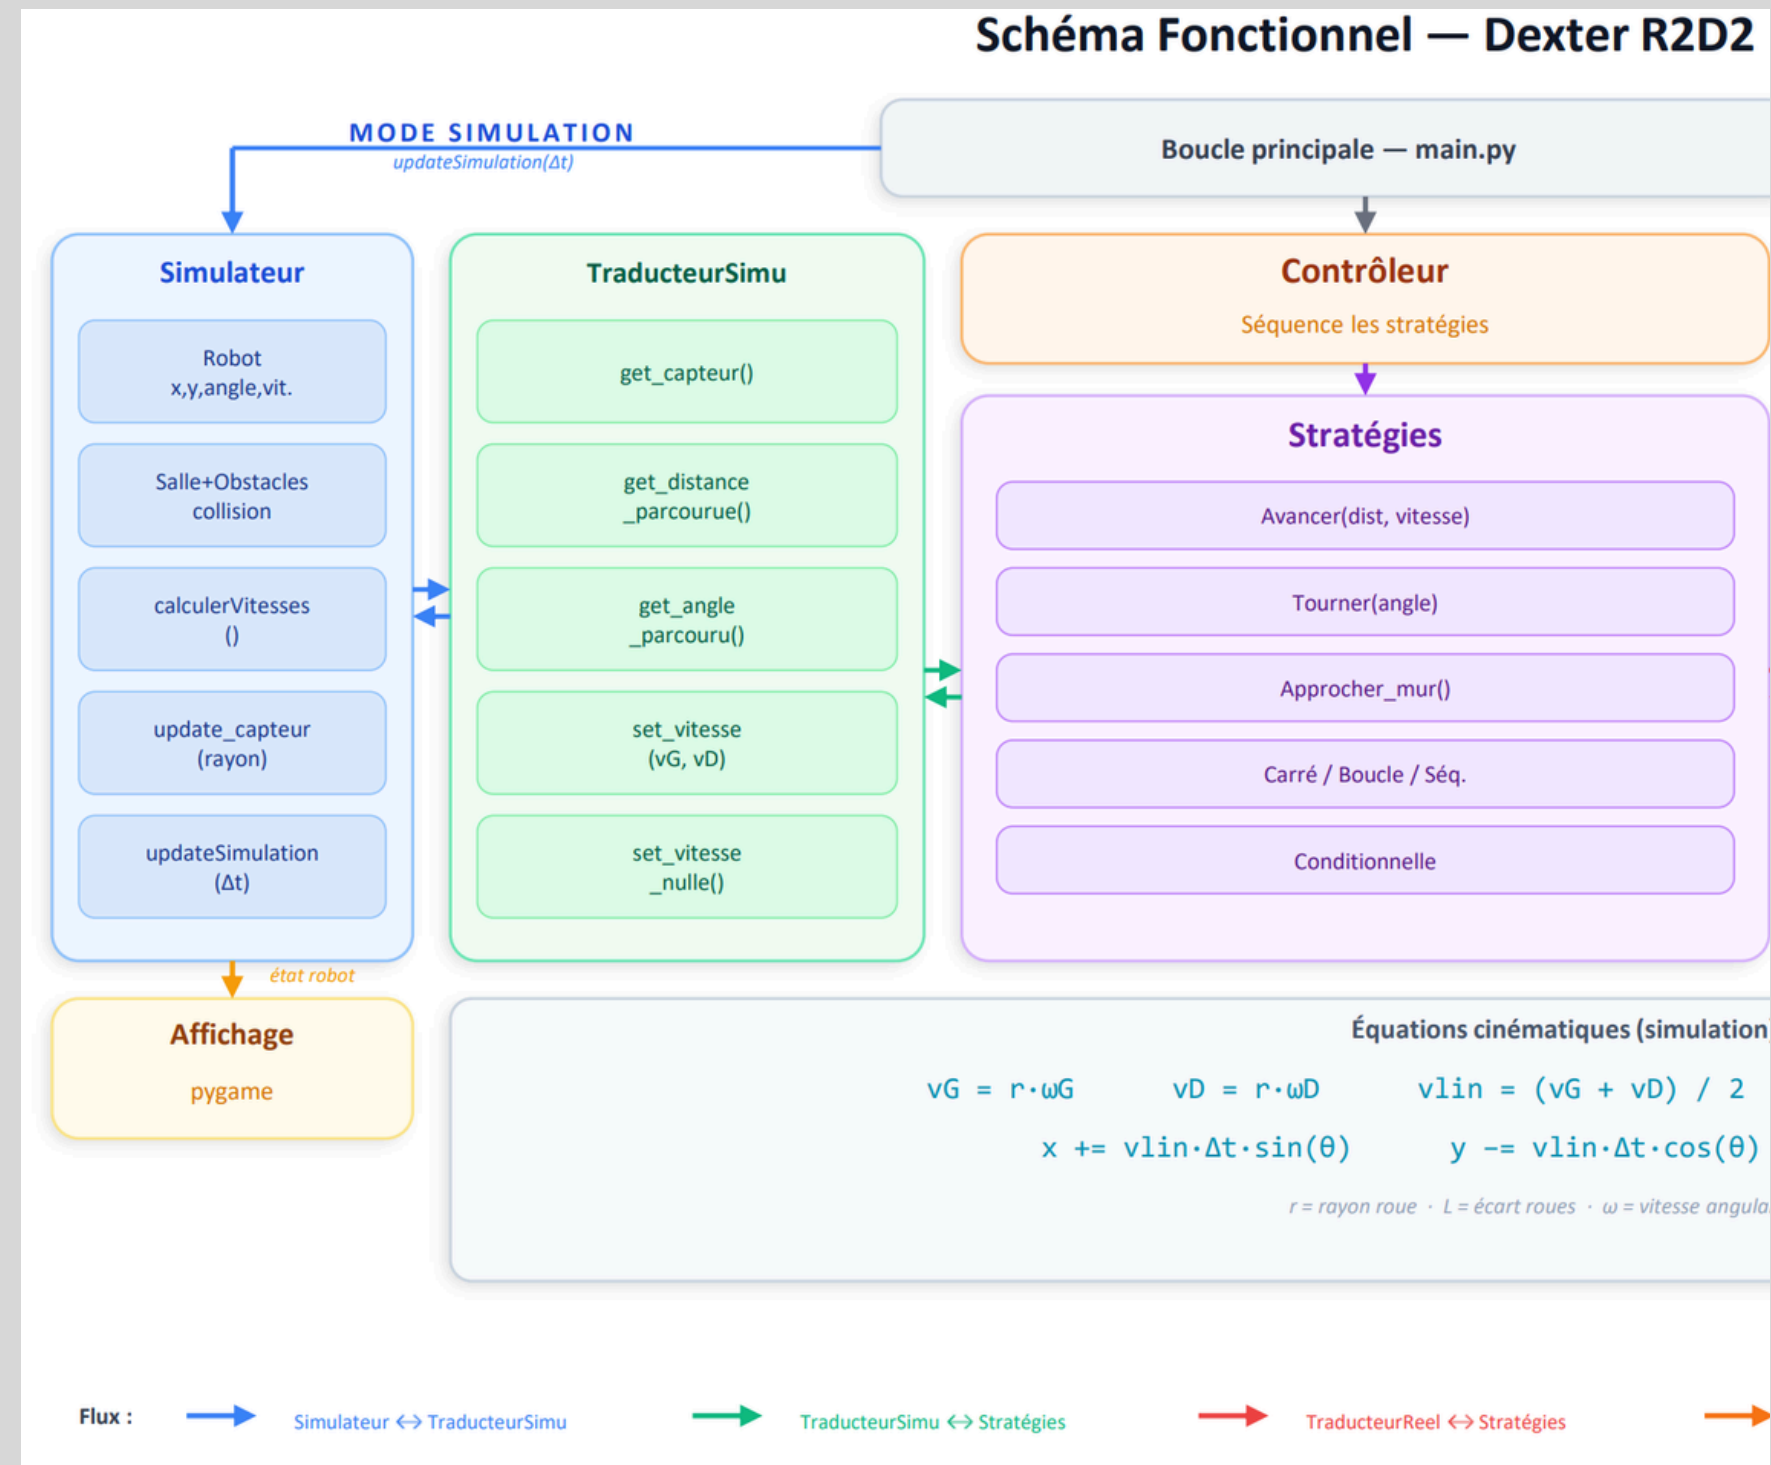

Schéma fonctionnel

Partie Simulation

Partie Réelle

Schéma Fonctionnel — Dexter R2D2

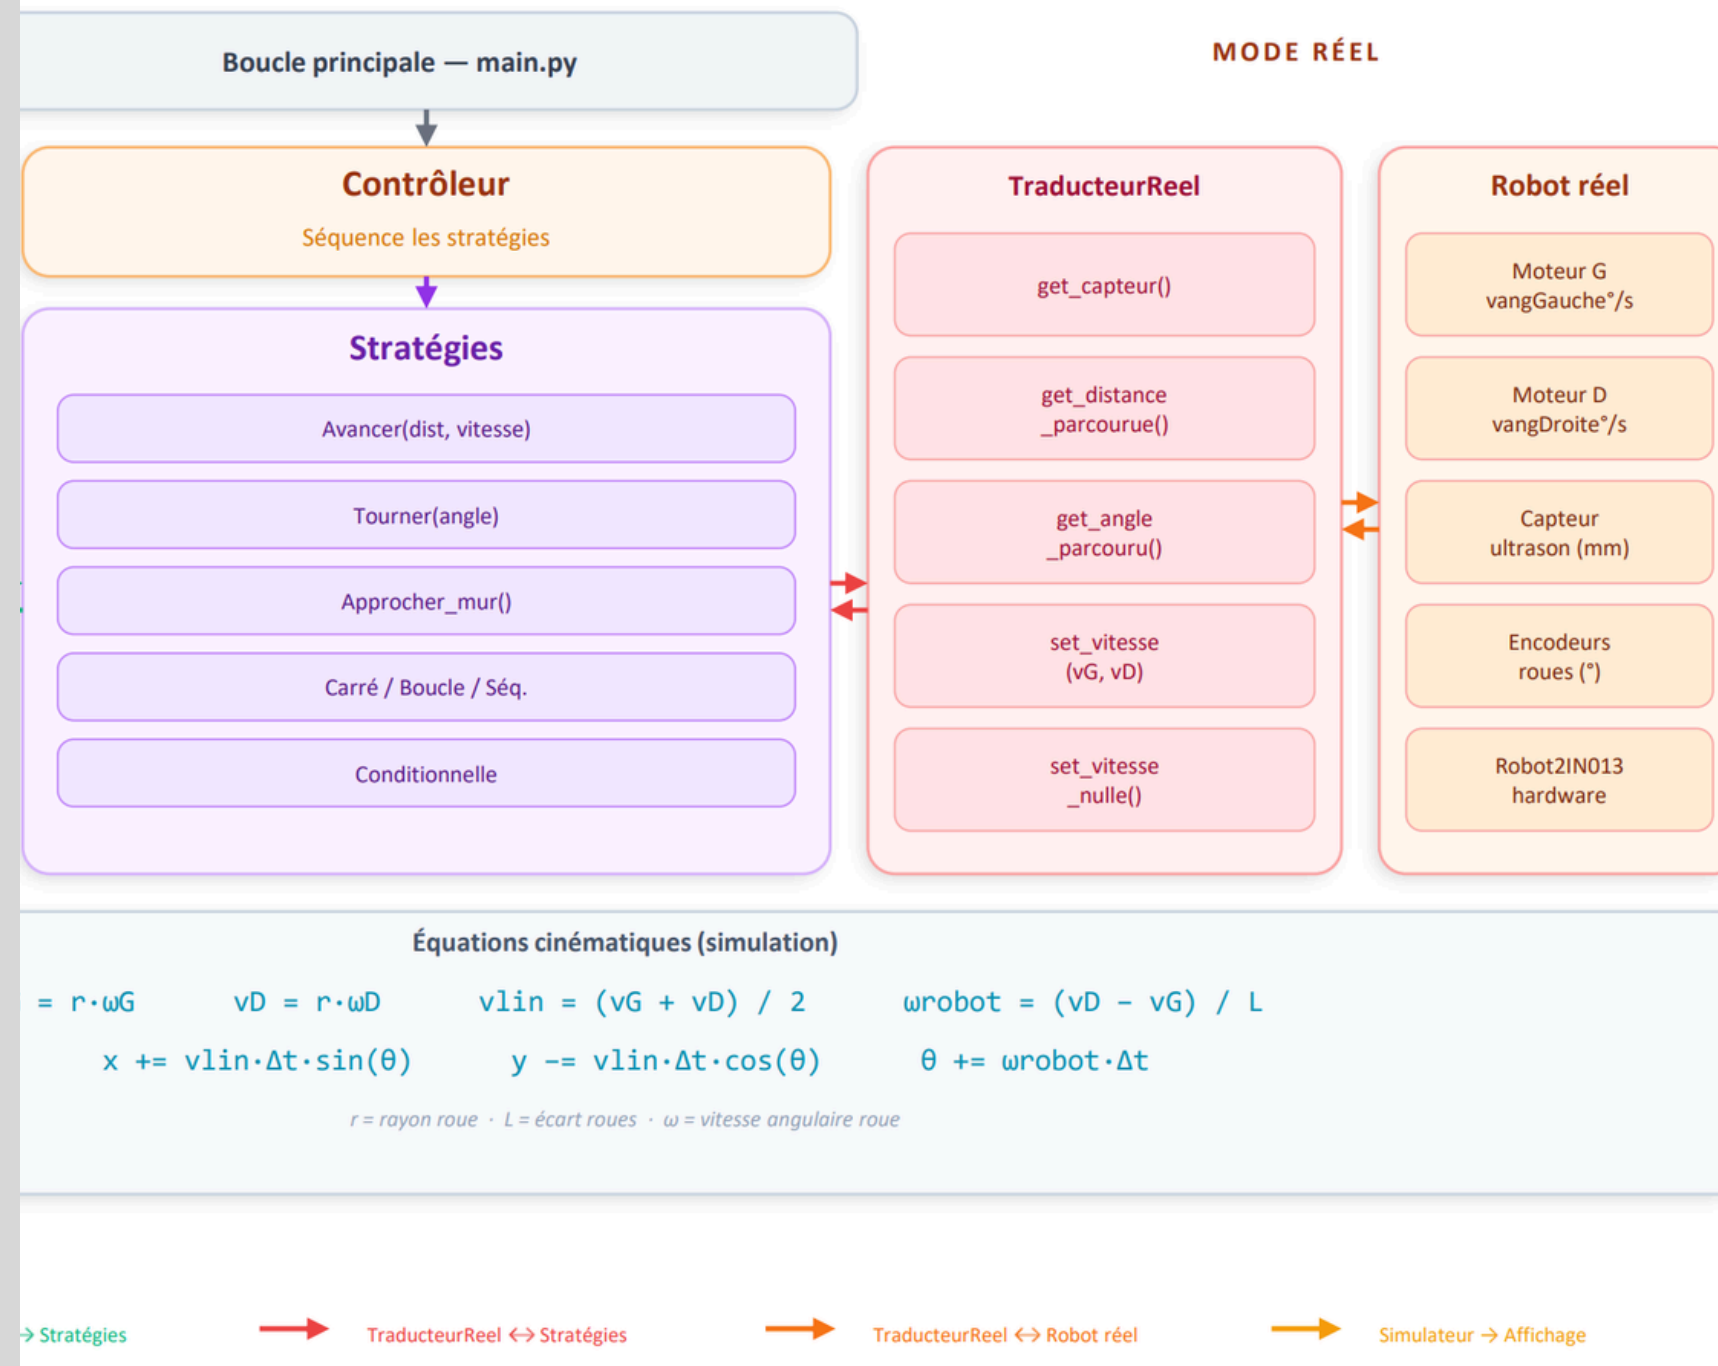

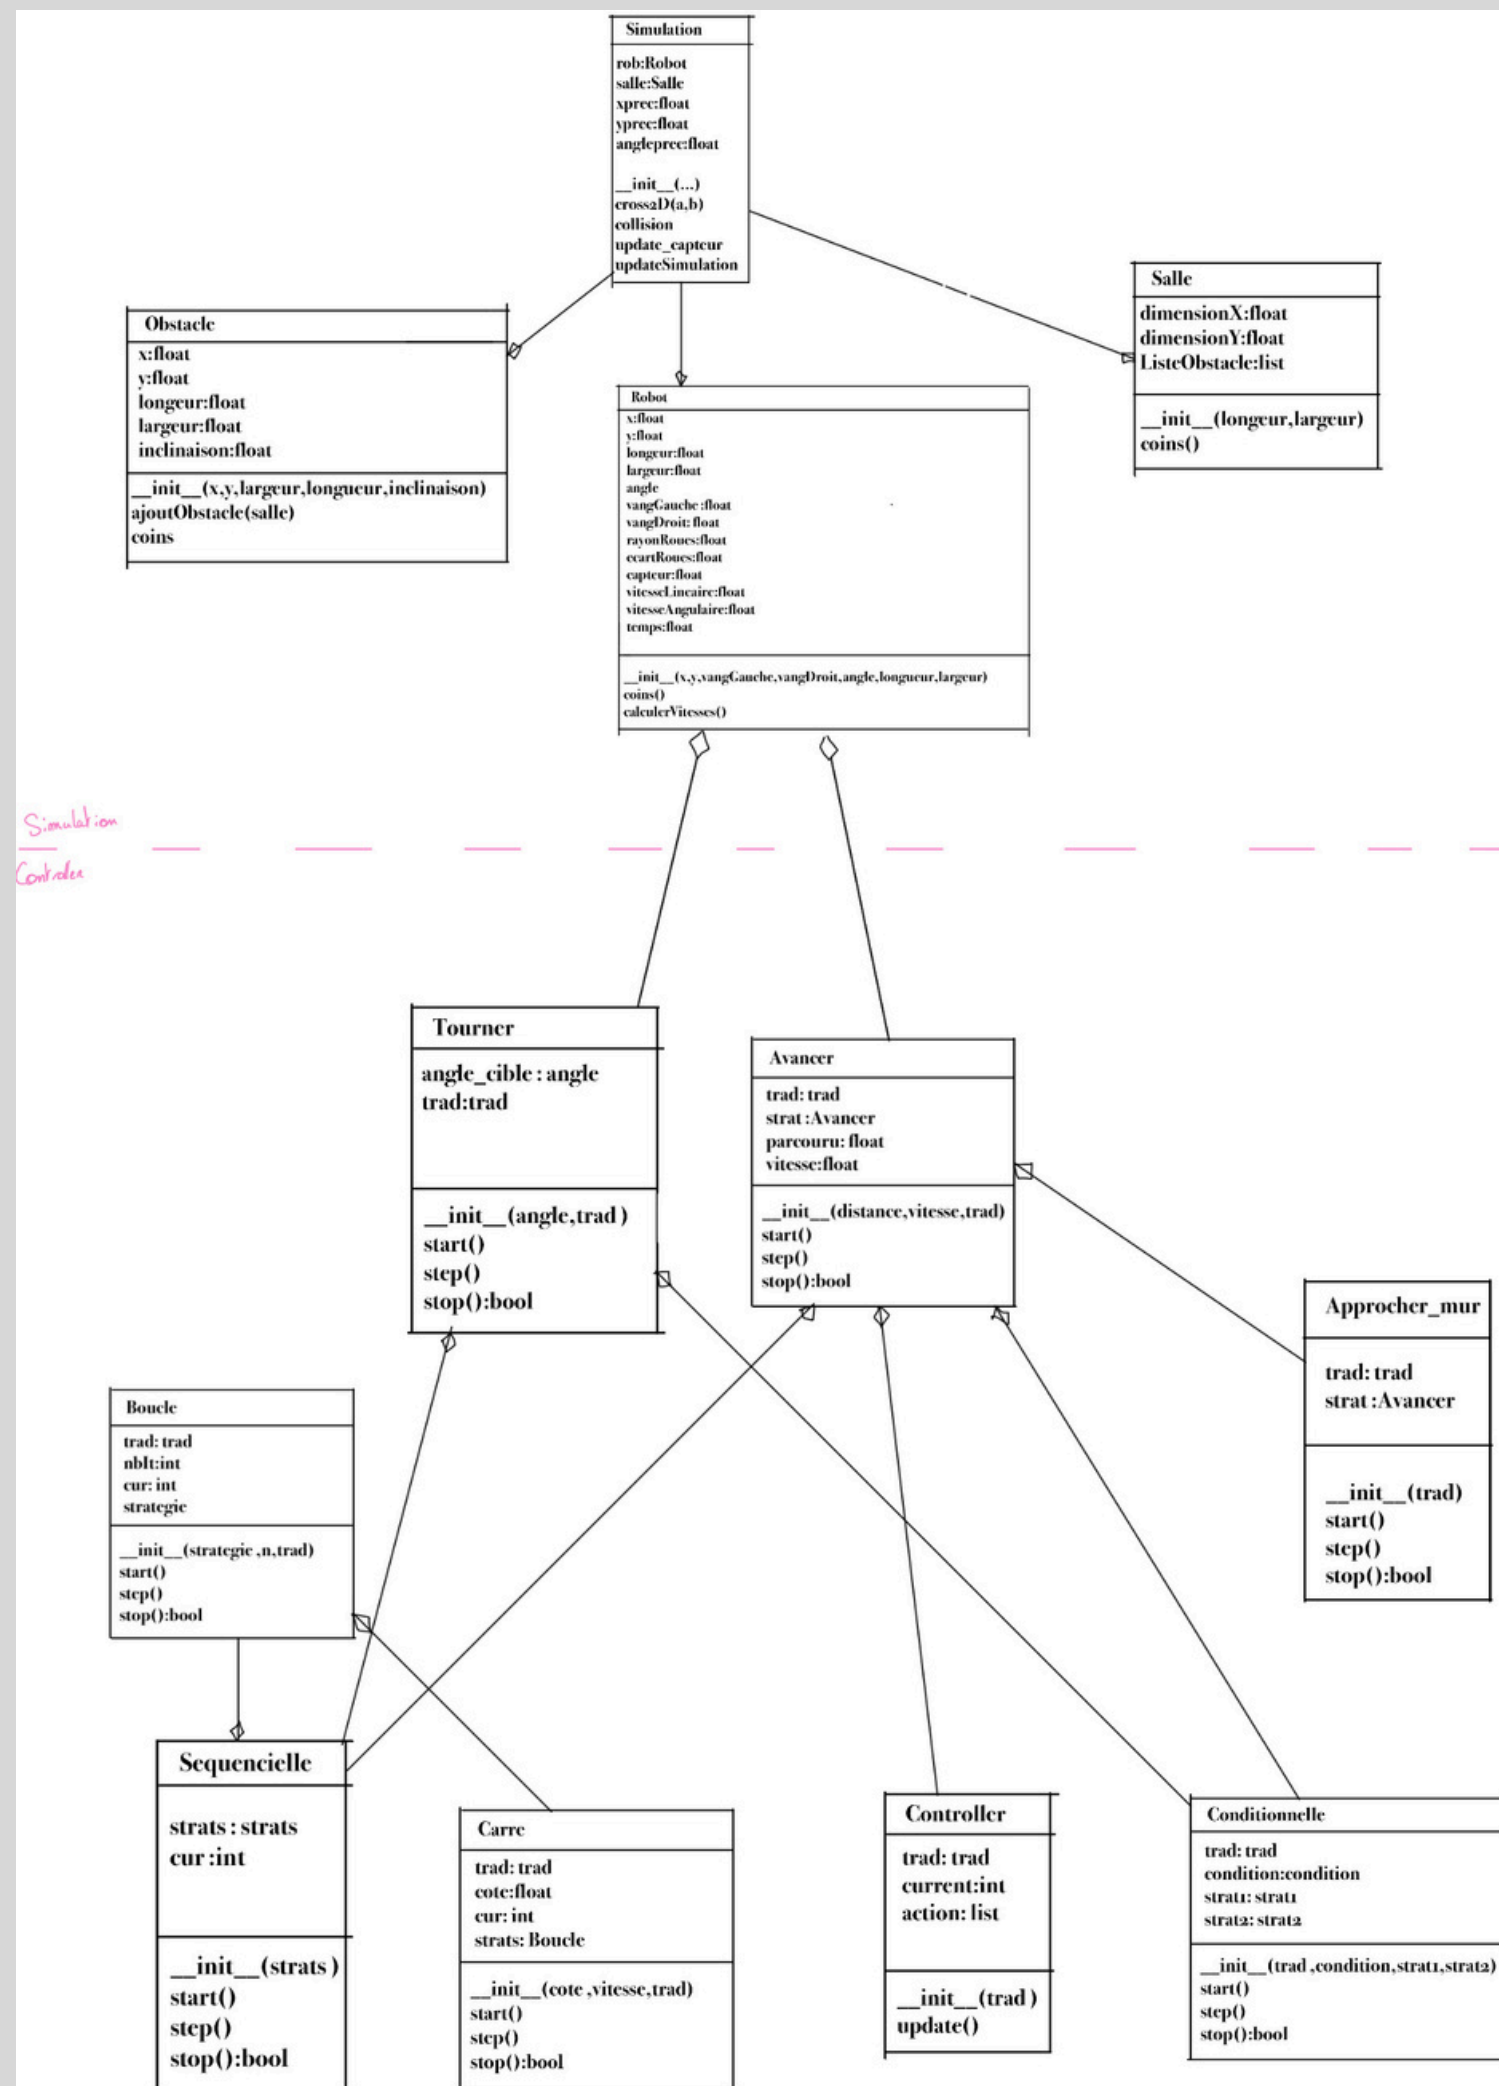

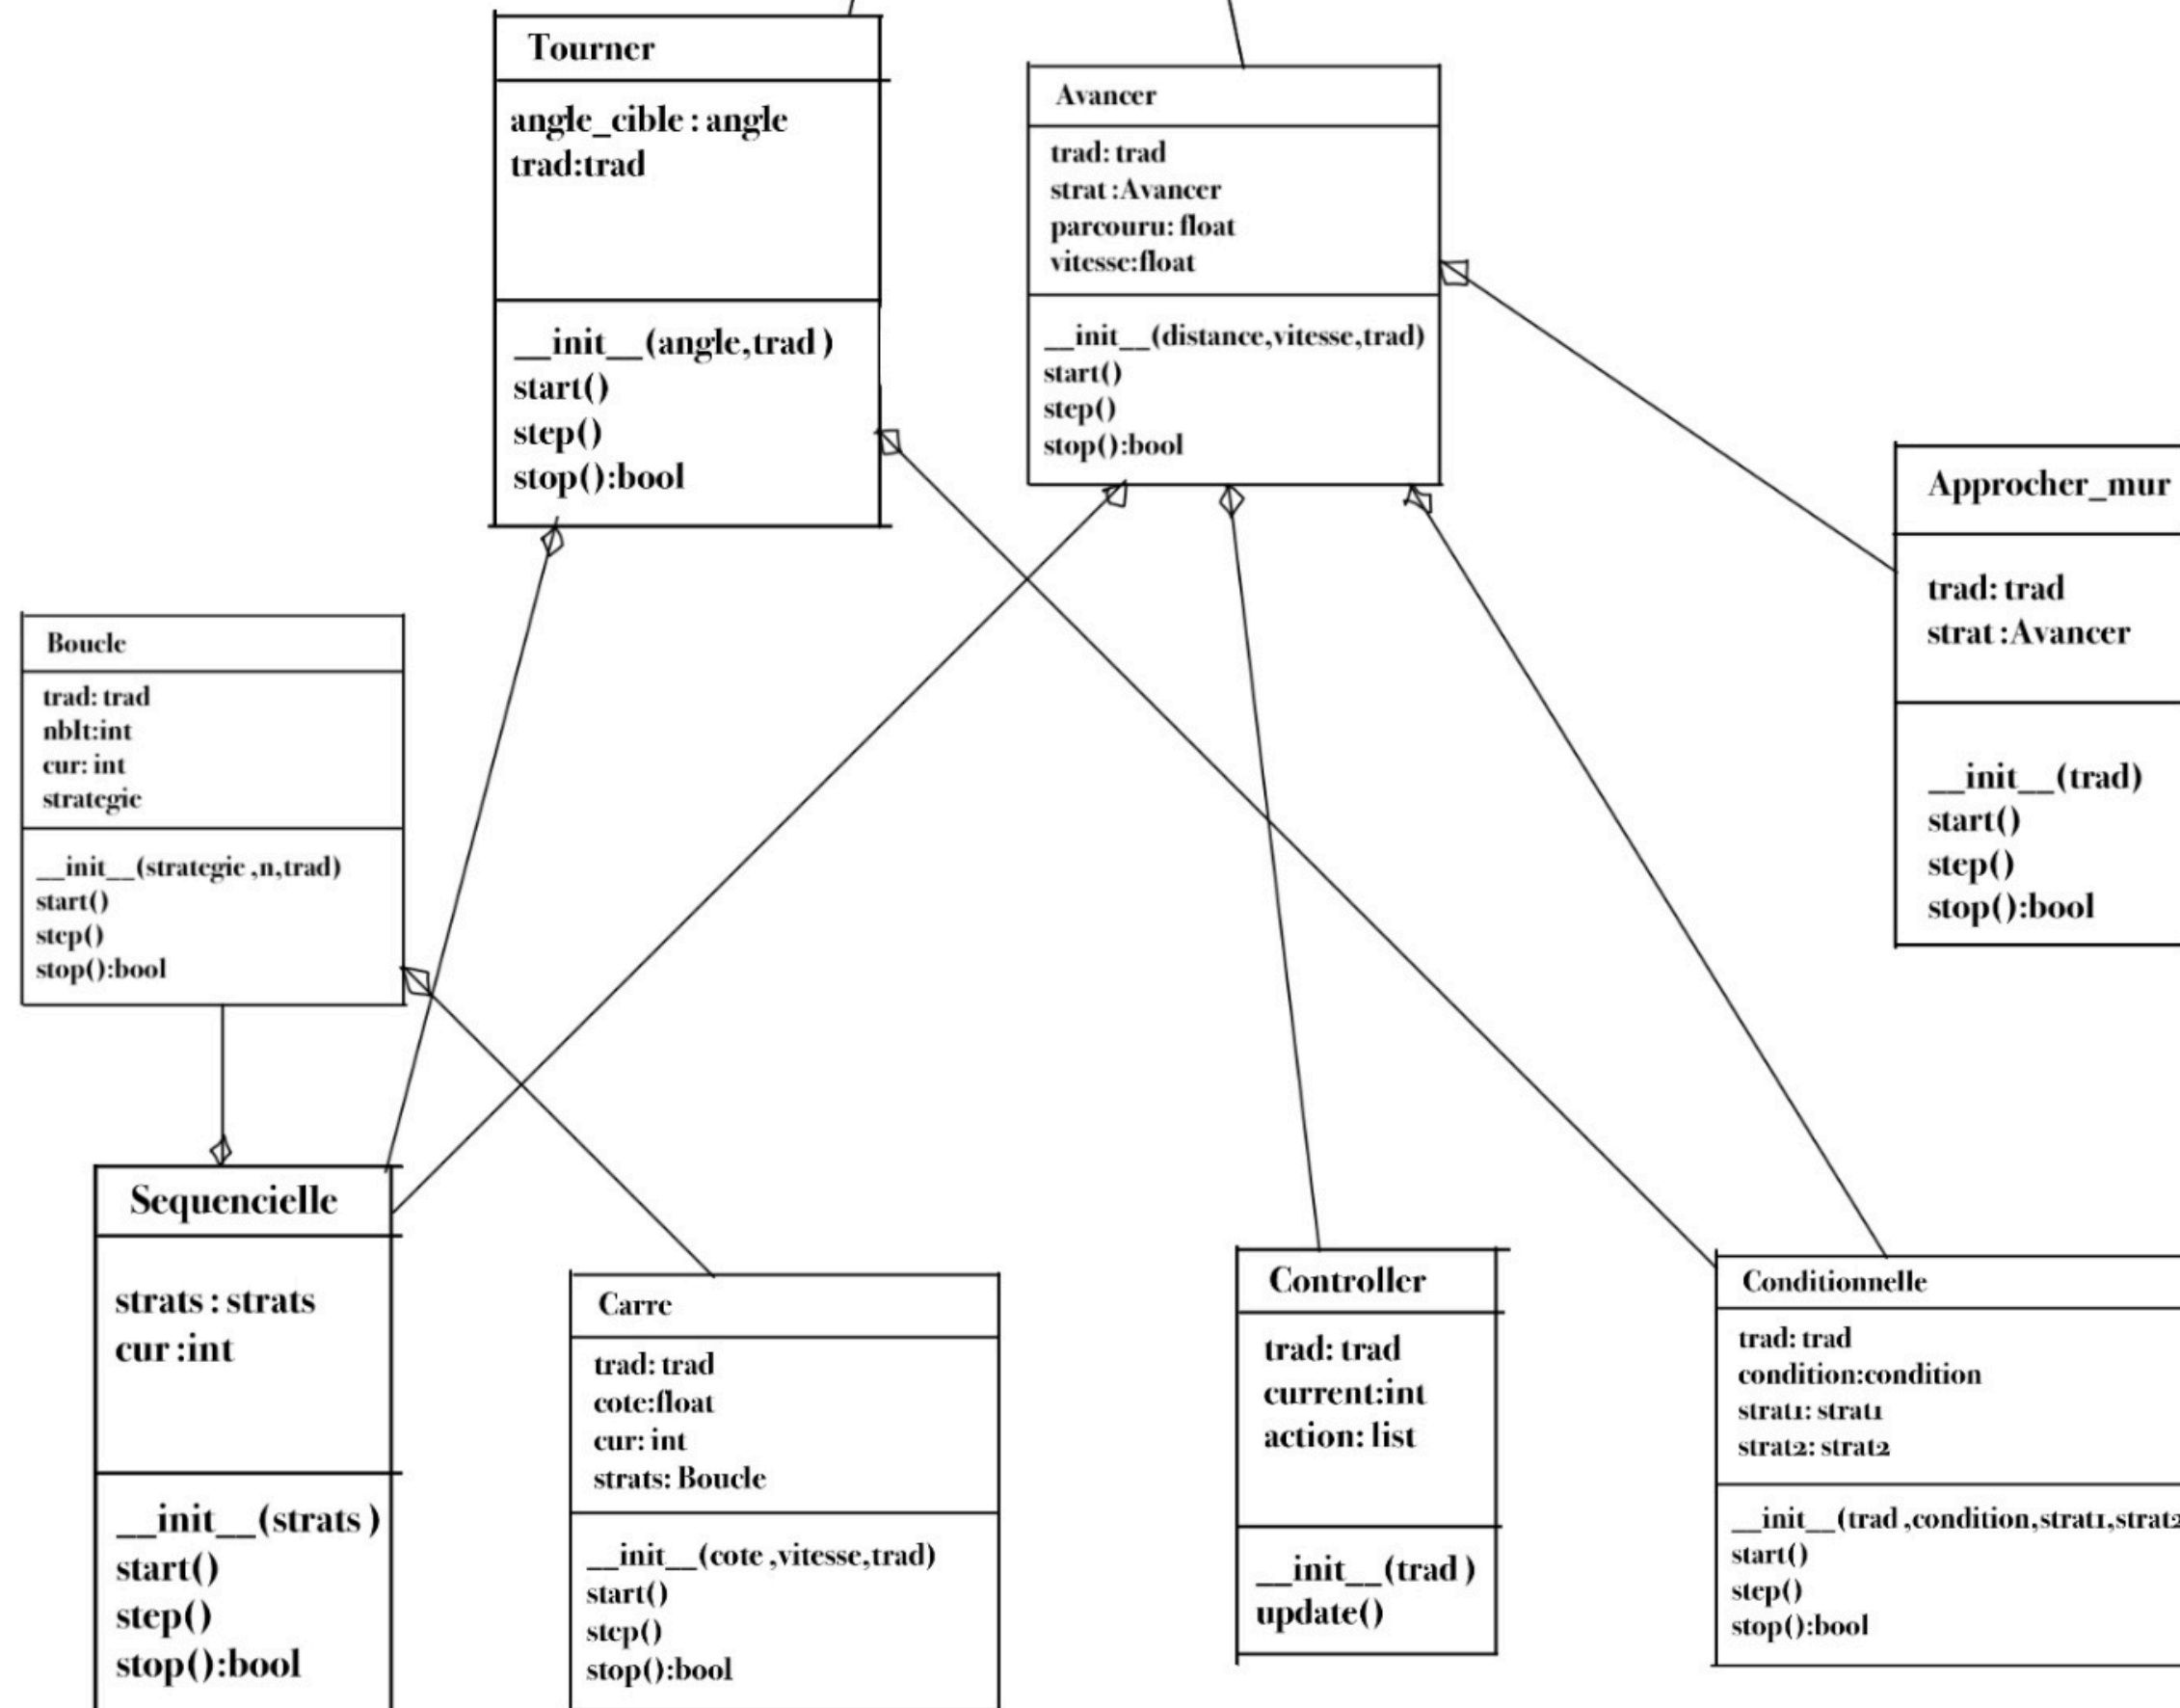

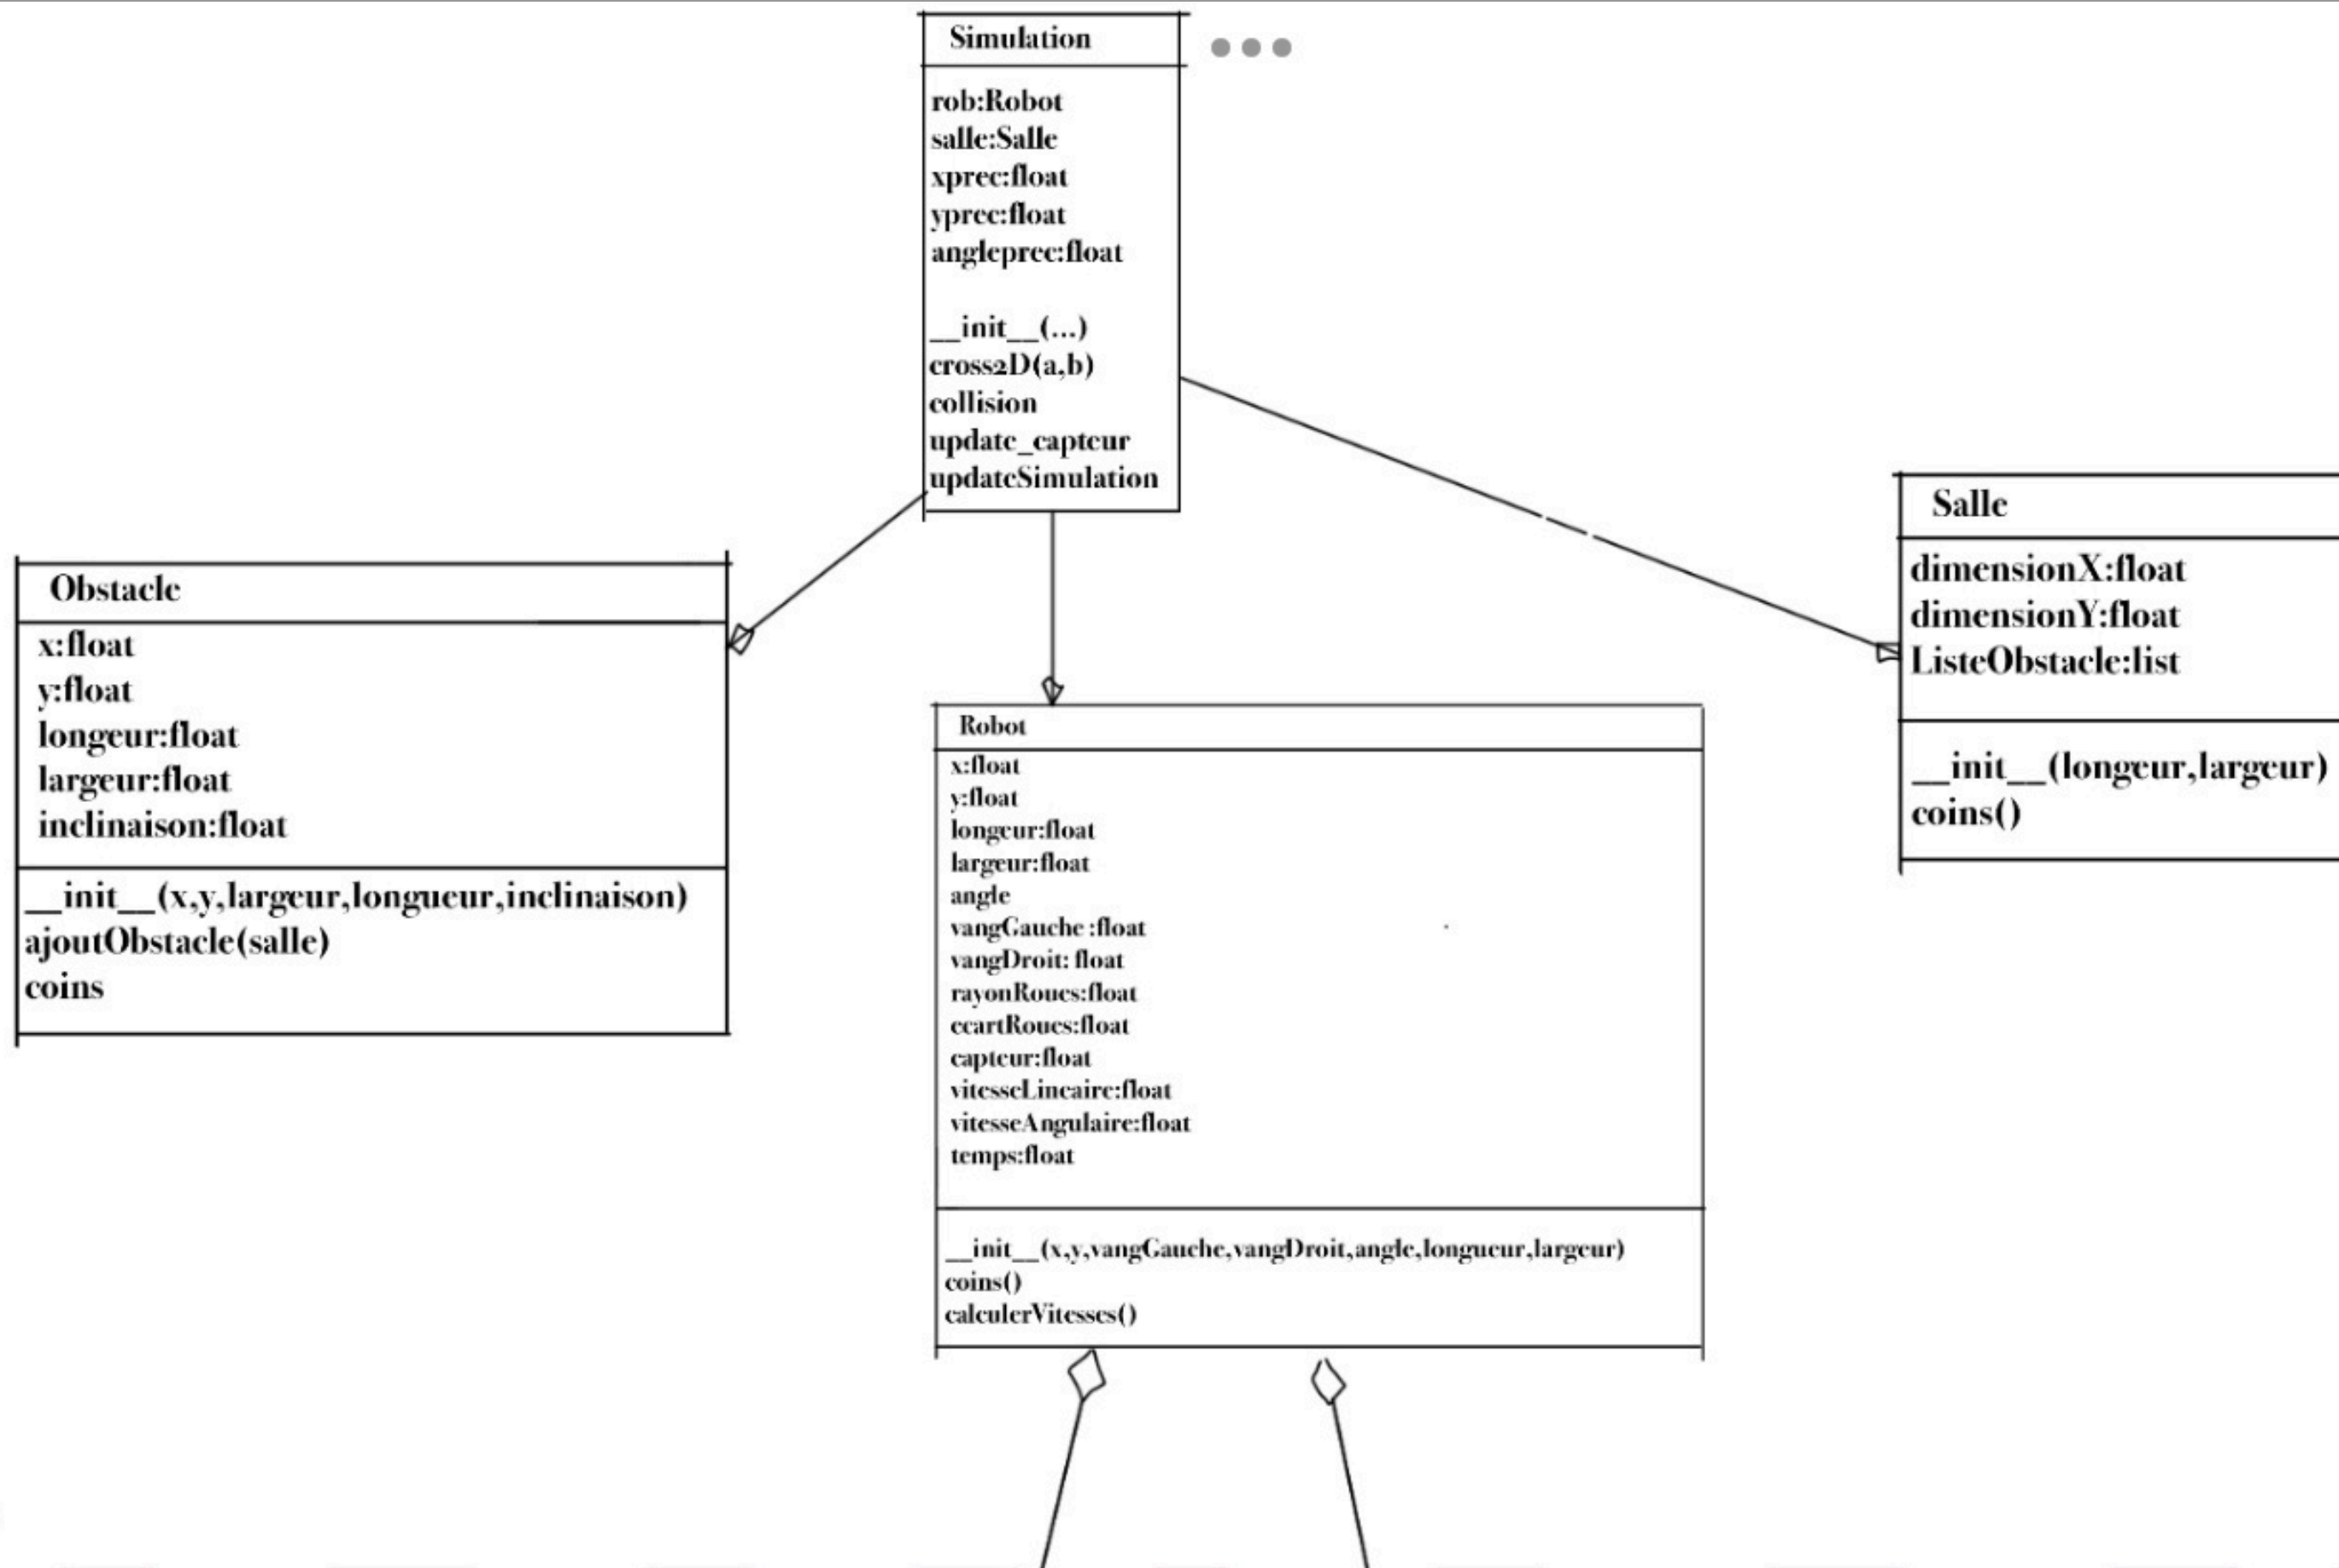

Schéma UML

- Partie Simulation
- Partie Controller

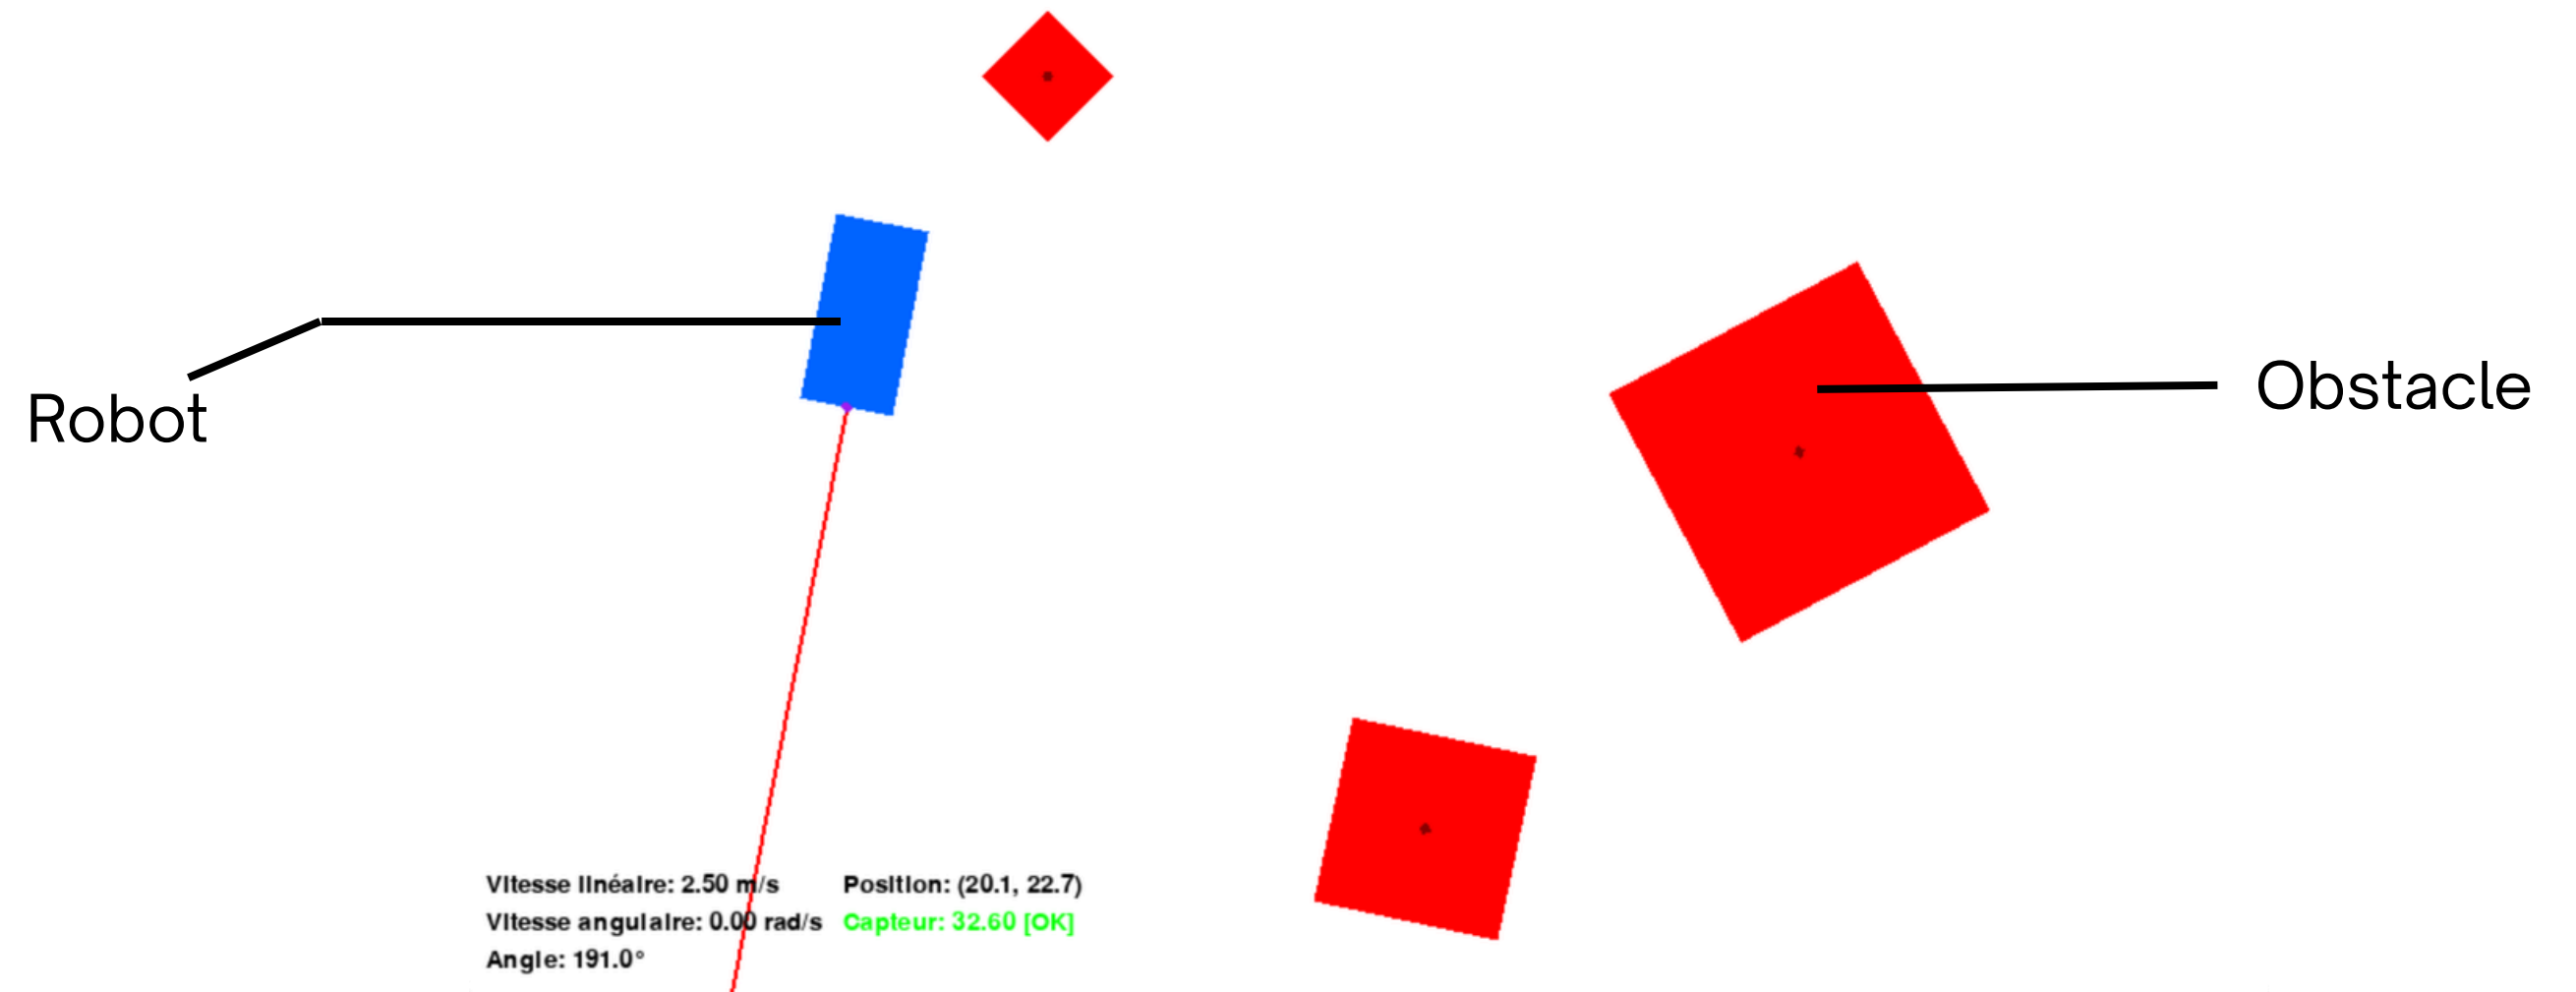

Simulation

Démonstration (Simulation)

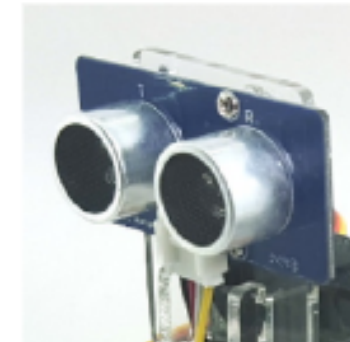

2 objectifs pour le robot :

- Carré
- Approcher un mur

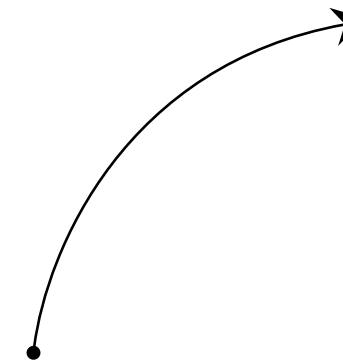

Pistes d'améliorations

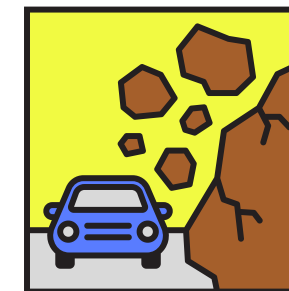

L'utilisation de la caméra

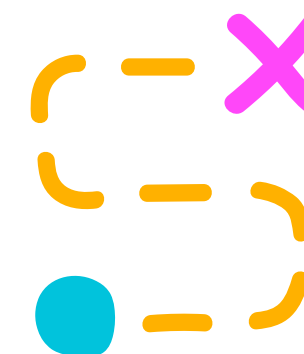

Pouvoir faire deux actions
simultanément

Collision robot réel

Des tâches plus complexe

Retour d'expériences

- Github
- Trello
- Python : Package, Module...
